We're the best location to get for the book. And today, your own time to get this specific guide as on

the list of compromises has become ready. Judging by the evidence, the nurse was home alone, but Junior raised his voice above the music and called out, "Hello? Is anyone here?". Those ominous words again, turning through his memory, reel to reel. This time he actually heard them spoken. The voice commanded minded attention with a deeper timbre and crisper diction than his own. Thus armored, he at last arrived in the city of Sacramento, an hour before dawn. Sacramento, which means "sacrament" in Italian and in Spanish, calls itself the Camellia Capital of the World, and holds a ten-day camellia festival in early March—already advertised on billboards now in mid-January. The camellia, shrub and flower, is named for G. J. Camellus, a Jesuit missionary who brought it from Asia to Europe in the eighteenth century. "Yeah," he confirmed, applying a blue crayon to a grinning bunny that was dancing with a squirrel. "Seems like," Vanadium agreed. "So a man like Cain obsesses on one thing after another—sex, money, food, power, drugs, alcohol, anything that seems to give meaning to his days, but that requires no real self-discovery or self-sacrifice. Briefly, he feels complete. However, there's no substance to what he's filled himself with, so it soon evaporates, and then he's empty again." If he killed Bartholomew and got away clean, as he expected that he would, then he could subsequently return everything in the van to the apartment. He was just being prudent by planning for his future, because the future was, after all, the only place he lived. Reading the dates on the headstone, he saw that the minister's daughter had died on the seventh of January, the day after Naomi had fallen from the fire tower. If ever asked, Junior would have no trouble accounting for his whereabouts on that day... So he calls it the King. If you find him his King, he'll treat you well. He's often here. Come on, I'll show you. Dog can't track till he's had the scent." From time to time, he halted, leaning against the walker as if in need of rest. He took care occasionally to grimace convincingly, not too theatrically—and to breathe harder than necessary. "So do I," said the visitor, and Junior almost frowned at this peculiar response, wondering what was meant in addition to what was merely said. "Thanks, Sparky, but not tonight. I'm thinking of taking a look around downstairs if old Nine Toes isn't stuck at home tonight with a case of paralytic bladder." Maybe the bright side was that the musician hadn't either wet his pants or taken a dump while in his death throes. Sometimes, during a comparatively slow death like strangulation, the victim lost control of all bodily functions. He'd read it in a novel, something from the Book-of-the-Month Club and therefore both life-enriching and reliable. Probably not Eudora Welty. Maybe Norman Mailer. Anyway, the men's room didn't smell as fresh as a flower shop, but it didn't reek, either. The bullet had been fired by a renegade cop who was every bit as lousy a marksman as he was a corrupt scumball. He'd been aiming for Nolly's crotch. With her brothers, she adjourned to the waiting room, where the three of them sat drinking vending-machine coffee, black, from paper cups. Though she worried that reading would strain his eyes, worsening his condition, she recognized the irrationality of her fear. Muscles don't atrophy from use, nor eyes wear out from too much seeing. He raised one hand to halt the genteel debate. "The whole reason I stopped here first, before taking you folks on to my place, is so I wouldn't have to bring your suitcases back after Agnes won you over. This is where you'll be happiest, though you're always welcome if she tries to work you to death." His attention, as morbid as a circling vulture, settled upon the pianist's right hand. The left was open, palm down. But the right was crumpled shut, palm up. One hand on the railing, he ascended the first three steps slowly. Pausing on each, he slid his foot forward and back on the carpet, runner to judge the depth of the tread relative to his small foot. He ran the toe of his right shoe up and down the riser between each tread, gauging the height. Dropped cartridges gleamed on the carpet. Stoop to snatch them up? No. That was asking for a skull-cracking blow. In the glamorous cocktail lounge of this elegant hotel, Junior was necessarily forced to use other of Zedd's techniques—and more brandy—to liberate from his subconscious the name of the caller on the Ansaphone. Max. The caller had said, It's Max. When she looked up from Barty, she saw the attorney with his hands full of documents. "Surprise? I know what's in Joey's will." No one was surprised by his proposal, her acceptance, and the wedding. Barty and Angel were both eighteen when they were married in June of 1983. by the ferocity of the beating and by years of fear and humiliation. So he opens his mouth, just to end it, just to be. Instead of staring at Barty directly, he watched Angel as she studied the eyeless boy. She had exhibited no horror at the concave slackness of his closed lids, and when one lid fluttered up to reveal the dark hollow socket, she hadn't shown any revulsion. Now she moved closer to Barty's chair, and when she touched his cheek, just below his missing left eye, the boy didn't flinch in surprise. In either case, printing the name in blood was a ritualistic act, and ritualism of this nature was an unmistakable symptom of a seriously unbalanced mind. Evidently, the wife killer would be easier to crack than expected, because his shell was already badly fractured. When the pianist eventually launched into "Someone to Watch over Me," he didn't appear to be responding to a request, considering that a few other numbers had been played since the most recent gratuity. The tune was, after all, in his nightly repertoire. No one in Junior's circles seemed to care about the crisis in American music. He supposed he had a greater awareness of injustice than did most people. The full nature of the nightmare continued to elude him, but he became convinced that good reason for his fear existed, that the dream had been more than a dream. He had a nemesis named Bartholomew not merely in dreams, but in the real world, and this Bartholomew had something to do with ... babies. Among themselves, the authorities spoke more often than not in murmurs. Or perhaps Junior was too distracted to hear them clearly. Harmless though they were, the sight of them, swaddled and for the most part concealed, first troubled him and then quickly brought him—inexplicably, irrationally, undeniably—to the trembling edge of outright fear. The problem was Celestina in the Buick, because when she saw what was happening, she might slide behind the steering wheel and speed away. The engine was running, white plumage rising from the tailpipe and feathering away in the fog, so she might escape if she was a quick thinker. He had learned many things about himself on this momentous day—that he was more spontaneous than he had ever before realized, that he was willing to make grievous short-term sacrifices for long-term gain, that he was bold and daring—but perhaps the most important lesson was that he was a more sensitive person than he'd previously perceived himself to be and that this sensitivity, while admirable, was liable to undo him unexpectedly and at inconvenient times. He spent the afternoon with her and stayed for dinner. He ate at her bedside, feeding both himself and her, balancing the progress of his meal with hers, so they finished together. He'd never fed her before, yet he wasn't awkward with her, or she with him, and later what he remembered of dinner was the conversation, not the logistics. More often than not, in a social situation, regardless of its nature, there came a time when Edom had to bolt, and here now was the time, not because he floundered at a loss for words, not because he became panicked that he would say the wrong thing or would knock over his coffee cup, or would in some way prove himself foolish or as clumsy as a clown in full pratfall, but in this instance because he didn't want to bring his tears into Agnes's day. Recently she'd had too many tears in her life, and though these were not tears of anguish, though they were tears of love, he didn't want to burden her with them. "Well, actually, I owe Phimie. It's what she said between her two deaths on the delivery table that's

changed my life." Then Junior saw the blood on the right cuff of Vanadium's shirt. Blood dripping from his hand, too. In fact, although weak and aching, Junior felt mentally refreshed and wonderfully alert. She curled up in the armchair, watching Barty. She was greedy for the sight of him. She thought she would not doze off, but would spend the night watching over him, yet exhaustion defeated her. Only a small group of mourners gathered for this service. Junior and Naomi had been so intensely involved with each other that, unlike many young married couples, they had made few friends. Two high-quality deadbolt locks. Sufficient protection against the average intruder, but inadequate to keep out a self-improved man with channeled anger. Dr. Lipscomb brought his hands to his face, covering his nose and mouth as earlier they had been covered with a surgical mask, as though he were in danger of drawing in, with his breath, an idea that would forever change him. "Look at it this way, Aggie. All the pies, all the things you do—that's betting on life. And now you've just been given the great blessing of being able to place larger bets." "It's a boy," Joey assured her, as though he had been given a vision. Thick blood sluiced across his lower lip, down his chin, bright arterial blood. "Baby, no," she pleaded. "Thank you, Nurse Bressler," he said most solemnly, matching her tone, barely able to control the urge to glance at her, smile, and give her another preview of his quick, pink tongue. He had met her in a university adult-extension course titled "Increasing Self-Esteem Through Controlled Screaming." Participants were taught to identify harmful repressed emotions and dissipate them through the authentic vocal imitations of a variety of animals. Jacob grunted, but probably not because he'd heard what had been said about him, more likely because he'd just turned the page to find a photo of dead cattle piled up like driftwood against the American Legion Hall in some flood-ravaged town in Arkansas. Likewise, she wasn't prepared to deal with a monster like the father, if one day he came for Angel. And he would come. She knew. In these events as in all things, Celestina White glimpsed a pattern, complex and mysterious, and to the eye of an artist, the symmetry of the design required that one day the father would come. She wasn't prepared to deal with the creep now, but by the time that he arrived, she would be ready for him. Opening the directory to the marker, he found a card tucked between the pages. A joker, with BARTHOLOMEW in red block letters. His instructor, Bob Chicane—who visited twice a week for an hour—advised him to imagine a perfect fruit as the object of his meditation. An apple, a grape, an orange, whatever. Dishes dried and put away, Jacob retired to the living room and settled contentedly into an armchair, where he would probably become so enthralled with his new book of dam disasters that he would forget to make luncheon sandwiches until Barty and Angel rescued him from the flooded streets of some dismally unfortunate town. Edom complied, and in the arc of red Bicycle patterns, one card revealed too much white corner, because it was the only one face up. Bartholomew was an uncommon name, however, and logic suggested that if the baby was now called Bartholomew, he'd been named for his adoptive dad. Therefore, a search of the listings might be fruitful. Jacob was hiding something. Until he had spoken of Josef Krepp, his every response had been formed as a question, which had always been his preferred method of avoidance when conversation involved a subject that made him uncomfortable. The doors slid open, and they rolled Barty corridor to corridor, past the scrub sinks, to a waiting surgical nurse in green cap, mask, and gown. She alone effected his transfer into the positive pressure of the surgery. Renee Vivi spoke with a silken southern accent. Vivacious without being cloyingly coquettish, well-educated and well-read but never pretentious, direct in her conversation without seeming either bold or opinionated, she was charming company. "I can't sleep half the time," Deed said, twisting the baseball cap in his hands. "I've lost weight, and I'm so nervous, jumpy." From her Volkswagen bus in the middle of the line, Maria joined them. "In case we get separated, Agnes, I don't have an itinerary." In the park, rocketing along on the roller coaster, Barty had an experience, a reaction to more than the canted turns and steep plunges. He grew excited in much the way that Agnes had seen him excited when grasping a new and arcane mathematical theory. At the end of the ride, he wanted to get back on immediately, and so they did. There are no long waits for the blind at amusement parks: always to the head of the line. Agnes rode twice again with him, and then Paul twice, and finally Angel accompanied him three times. This roller-coaster obsession wasn't about thrills or even amusement. His exuberance gave way to a thoughtful silence, especially after a seagull flew within inches of his face, feathers thrumming, startling him, on the next-to-last rollick along the tracks. Thereafter, the park held little interest for him, and all he would say was that he'd thought of a new way to feel things—by which he meant all the ways things are—a fresh angle of approach to that mystery. He briefly closed his hand around the three coins, then with a snap of his wrist, flung them at Nolly, who flinched. But either the coins were never flung or they vanished in midair—and his hand was empty. Dropped, the wineglass had shattered. But the bottle of Merlot had survived again, rolling across the vinyl-tile floor until it bumped gently against the base of a cabinet. Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him. "Who...who're you?" Junior rasped, still badly rattled by the nightmare and by Vanadium's presence, but quick-witted enough to stay within the clueless character that he had been playing. Otter said nothing. "That's the roaster tower," said Licky. "Where they cook the cinnabar to get the metal from it. Roasters die in a year or two. Where to, dowsers?" Having shuffled all four stacks of cards, Jacob cut two decks and shuffled the halves together, controlling them exactly as he had controlled them on Friday evening. Then the other two halves. In case someone was waiting in the hallway, he flushed the john for authenticity, though binding foods and paregoric still gave him the sturdy bowels of any brave knight in battle. Number three on the charts was "Mr. Lonely," by Bobby Vinton, an American talent from Canonsburg, Pennsylvania. Junior sang along. Either operating on first-aid knowledge of his own or responding to an instruction from the medic, the cop slipped a foam pillow under Agnes's head. She had lighted one candle for each of eleven apostles, none for the twelfth, Judas, the betrayer. Consequently, after burning a fragment of the cards in each votive glass, she was left with one piece. Before Junior had become a physical therapist, he had considered studying to be a dentist. A low tolerance for the stench of halitosis born of gum disease had decided him against dentistry, but he still could appreciate a set of teeth as exceptional as these. He could recall clearly when he had known that he would marry her: during his first year of college, when he'd returned home for the Christmas break. Away at school, he had missed her every day, and the moment that he saw her again, an abiding tension left him, and he felt at peace for the first time in months. Almost recoiled in disgust. She held the newborn so that its mother could look into. For guidance, Agnes couldn't rely entirely on any of the child rearing books in her library. Barty's unique gifts presented her with special parenting problems. Now, when he asked if he could stay up even later, to read about John Thomas Stuart and Lummo, John's pet from another world, she granted him permission. Not cheerful, life-loving, high-spirited, churchgoing Naomi. She saw every day through a golden haze that came from the sun in her heart. A sedan had come to a stop in the graveled driveway, over to the right of the house, almost out of view. As Junior watched, the headlights were doused. The engine shut off. The driver's door

opened. A man got out of the car, a shadowy figure in the fearsome yellow moonlight. The dinner guest..A man came out of the stone tower. He passed them, walking hurriedly with a queer shambling gait, staring straight ahead. His chin shone and his chest was wet with spittle leaking from his lips..He fished the sound-suppressor from a jacket pocket, drew the pistol from his shoulder holster, and began to screw the former to the latter. He misthreaded it at first because his hands had begun to shake..The wife killer was evil; and his evil would be expressed one way or another, regardless of the forces that affected his actions. If he'd not killed Naomi on the fire tower, he would have killed her elsewhere, when another opportunity for enrichment presented itself. If Victoria hadn't become a victim, some other woman would have died instead. If Cain hadn't become obsessed with the strange conviction that someone named Bartholomew might be the death of him, he would have filled his hollow heart with an equally strange obsession that might have led him, anyway, to Celestina, but that would surely have brought violence down on someone else if not on her..Thursday evening, his third in the hotel, he returned to the lounge for cocktails and another steak. The same tuxedoed pianist provided the entertainment.. "Then you have a big advantage, and you'll have to tell us all about yourselves," Agnes said. "I'll get the coffee brewing ... unless you'd like to help."..Junior suspected Magusson never had any client but himself. Fat fees motivated him, not justice.. "Many claimed Maharion's throne, but none could keep it, and the quarrels of the claimants divided all loyalties. No commonwealth was left and no justice, only the will of the wealthy. Men of noble houses, merchants, and pirates, any who could hire soldiers and wizards called himself a lord, claiming lands and cities as his property. The warlords made those they conquered slaves, and those they hired were in truth slaves, having only their masters to safeguard them from rival warlords seizing the lands, and sea-pirates raiding the ports, and bands and hordes of lawless, miserable men dispossessed of their living, driven by hunger to raid and rob."..Maybe the watch wouldn't be discovered with the corpse. Maybe it would settle into the trash and not be found until archaeologists dug out the landfill two thousand years from now.. "As she comes closer to full term," said Dairies, "she's at great risk of preeclampsia developing into full eclampsia."..He and the homicide detective had been friends for almost thirty years, since Max had been a uniformed rookie on the SFPD and Vanadium had been a young priest freshly assigned to St. Anselmo's Orphanage here in the city. Before choosing police work, Max had contemplated the priesthood, and perhaps back then he had sensed the cop-to-be in Tom Vanadium.. "You may be eating yourself into an early grave, Vinnie, but poor Jacob has murdered his own soul, and that's infinitely worse."
