One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. I did not see the face of the speaker..In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east..more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had..would hear that cough, this time? He smiled at young Rose, and the mother's heart lifted. Surely."Yes," Gelluk said, his deep voice soft and dreamy, "she must be burned alive. And then, only then, he will spring forth, shining!..ropes of dark mist, giving way to the wizard who had made them..Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and..rested. The mage was a quiet man. Though there was a hint of fierceness in him, he never showed it..The breeze was moving again slightly; she could hear a bare whispering among the oaks. "A little," she said.
